

Instructions for installing ReservePro and TriangleMaker in Windows 7

Special instructions for installing ReservePro in Windows Vista or Windows 7

Please have someone with administrator permissions follow these instructions when installing on a Windows Vista or Windows 7 machine:

1. Do not run the *setup.exe* by double-clicking. Right-click on *setup.exe* and select **Run as Administrator**.
2. Run ReservePro the first time by right-clicking and selecting **Run as Administrator**.
3. If the user does not have administrator permissions on his/her computer, manually provide write access to *c:\windows\kernel32.com* and *c:\windows\respro5.ini*.

Special instructions for installing TriangleMaker in Windows Vista or Windows 7

Please have someone with administrator permissions follow these instructions when installing on a Windows Vista or Windows 7 machine:

1. Do not run the *setup.exe* by double-clicking. Right-click on *setup.exe* and select **Run as Administrator**.
2. Run TriangleMaker the first time by right-clicking and selecting **Run as Administrator**.
3. If the user does not have administrator permissions on his/her computer, manually provide write access to *c:\windows\user32.com* and *c:\windows\tri.ini*.
